OBJECTIVE

Web Developer with experience in building responsive and user-friendly web applications using Django, React, JavaScript, HTML, CSS, and SQL. Looking for an opportunity to leverage my technical skills, creativity, and teamwork to develop high-quality software solutions.

EDUCATION

Bachelor of Engineering in Computer Science & Engineering	October 2022 - April 2026
S A Engineering College CGPA :8.03/10	
Intermediate Education	August 2021 - May 2022
Vivekananda Vidyalaya Matriculation Higher Secondary School ,Tamilnadu, Percentage: 83%	
SSC, Class X	March 2019 - March 2020
Vivekananda Vidyalaya Matriculation Higher Secondary School ,Percentage:87%	

SKILLS

Language	: Python
Framework	: Django, FastAPI
Web Technologies:	HTML, CSS, JavaScript, React
Database	: PostgreSQL, MySQL, MongoDB

INTERNSHIP/TRAININGS

-> GradTwin IT Internship Training in Chennai-Python web Development duration is 3 months	17 June-Aug 2026
-> NoviTech r&d pvt ltd Internship for 1 month MERN FullStack Development and 1 month UI/UX using Figma	2 June-5 July 2025 15 July-19 Aug 2025

PROJECTS

.Portfolio in Django Framework	
Technologies: Django, Python, HTML, CSS, Bootstrap, JavaScript, SQLite/PostgreSQL	Aug 2026
Developed a responsive personal portfolio using Django MVC architecture. Implemented dynamic project, certificate, and skill management through the Django Admin panel. Built a contact form with database storage and resume download functionality.	
.FastAPI in Search Engine Application	July 2026
Technologies: FastAPI, Python, SQLAlchemy, SQLite/PostgreSQL, HTML/CSS/JavaScript	
Developed a RESTful search engine application using FastAPI with SQLAlchemy ORM. Implemented keyword-based search, filtering, sorting, and CRUD operations for recipe management. Used Pydantic for request validation and automatic API documentation with Swagger UI. Integrated a relational database to store and retrieve recipe information efficiently. Built a responsive frontend that communicates with FastAPI APIs and deployed the application using Git
